*Dear colleagues!*

*We invite you to publish in the thematic issue  
“Environmental safety and sustainable development:  
new approaches to wastewater treatment”*

Submission deadline: April 10, 2024

The issue is dedicated to the achievements of fundamental and applied research in the field of environmental safety and sustainable development (new approaches to wastewater treatment). The issue covers a wide range of studies on modern wastewater treatment technologies and methods for managing sewage sludge.

Original research articles in the following areas are accepted for publication:

- development of new materials for wastewater treatment;
- creation of nature-like wastewater treatment technologies;
- modern wastewater treatment technologies – best practices;
- assessment of the applicability of mining waste for the creation of wastewater treatment reagents;
- wastewater disposal;
- obtaining marketable products based on the processing of sewage sludge;
- digitalization processes in the field of wastewater treatment;
- modern environmental and man-made risks during the operation of wastewater treatment plants.

Managing editors of the issue: *M.A.Pashkevich*, Doctor of Engineering Sciences, Head of Geoecology Department; *A.S.Danilov*, Candidate of Engineering Sciences, Associate Professor of Geoecology Department, CEnv; *V.A.Matveeva*, Candidate of Engineering Sciences, Associate Professor, Director of Scientific Center Ecosistema.

Articles should be formatted in accordance with the rules of the journal “Journal of Mining Institute”.

Manuscripts are accepted only through the electronic editorial office of the journal [pmi.spmi.ru](http://pmi.spmi.ru).

Publication date: June 25, 2024.
